

Jupiter The offshore-ready Jupiter 38 Cuddy is based on a hull designed by naval architect Donald Blount that runs fast in rough water. With a pair of 350-hp Yamaha V-8 outboards, the boat cruises

JUPITER 38 CUDDY

at 35 miles per hour and top-end speed is near 50 miles per hour. This 38-footer with a 10'7" beam boasts Jupiter's usual high level of fit and finish, plus clever features such as the mezzanine seat located over a livewell. The boat is offered with interesting options too, including a custom sunshade that extends aft over the cockpit. The cuddy cabin sleeps two and has a private head with shower. Base price: \$299,000. jupitermarine.com
